Climber: It grows from 6 to 40 feet. Depending on the variety, blooms once a year or throughout the season

Hybrid Tea: its flowers are typically borne singly on long stem. "Needs to be disbudded to one bloom" Most are fragrant. It grows from 2 to 6 feet tall and blooms throughout the warm season.

Floribunda: The result of a cross between a polyantha and a hybrid tea. As the name says, it bears an abundance of blossoms resembling those of hybrid teas borne in clusters.

Grandiflora: Midway between a hybrid tea and a floribunda in habit, it came into being about thirty years ago. It's taller than a hybrid tea and has the same style flowers, although it's borne in clusters like a floribunda.

Miniature: Flowers are small but abundant. Usually compact, the plant may grow as tall as 4 feet.

The Junior Department is for young people who want to enter exhibits into the fair. There are a number of organizations that want competition among members of the organization. The Fair can do this by establishing divisions and classes for groups such as FFA and 4-H Clubs and others. The Fair will provide the opportunity for young people to exhibit who are not a member of an organization. The Fair can do this in several ways. They can let the youth compete in the appropriate class in direct competition with organization members or they can form separate classes for independent juniors. The Dixon May Fair will be providing separate competitions for Open Youth exhibitors in the still life categories (non-livestock).

You cannot enter the same category in both 4-H & Open Youth.

YOUTH EXHIBITORS:

The non-livestock department is open to youth Kindergarten through the 12th grade. There is a special pre-school division for those children not yet enrolled in kindergarten that they are eligible to enter. The Today's Youth Department is open to exhibitors who are members of 4-H and FFA organizations when entering projects that are not projects done through the organization or not offered in the 4-H or FFA Section (s) This section is open to Grange Members. When entering please **write your school name, Grange Name or none** on the club line of your entry form.

JUDGING SYSTEM

1. Entries will be judged by grade levels as designated on various classes offered.
2. Judging will be done on the Danish System.
3. The DANISH SYSTEM is defined as: COMPARING each exhibit on its own merit against the scorecard of the recognized standard and award as many first awards, etc. as merited. In all Junior departments using the Danish system, the following guidelines shall be used by judges:

LIVESTOCK SHOWCASE - Department 800

JUNIOR LIVESTOCK SHOWCASE

GENERAL JUNIOR SHOW RULES

The Fair industry has established and continues to revise consistent, statewide standards of livestock welfare and management practices for the junior livestock program. These standards will assure livestock product quality, food safety and livestock competition that is educational, fair and ethical. Communication and coordination among the fair industry, livestock industry, youth educators, and regulatory bodies will help to accomplish these objectives.

1. It is the goal of the 36th District Agricultural Association to produce a well-rounded livestock show that provides youth a chance to gain knowledge and responsibility for the care and treatment of an animal, appreciation for production agriculture and to give them a glimpse of what this career entails. We hope it will provide an educational opportunity to learn the skills necessary to be a successful small business and market their product to potential buyers. This valuable learning opportunity allows the exhibitor to be a small producer experiencing what those in production agriculture do every day. By providing this opportunity we hope to educate and promote California Agriculture and create future agriculturalists. All participants purchase livestock and enter at their own risk. In the event of a natural disaster/war/ civil disobedience/pandemic or other requirement by the government; the grounds may be required/ordered by a federal/state/ county or city agency requiring the facility, restricting or cancelling all events/functions/services. In the event of any cancellation or order the Association is not liable for any loss or expenses that may occur to the exhibitor or its family members/breeders/associates due to such an emergency/ declaration/order. No Refunds will be issued.
2. Entries may close prior to the specified closing dates, depending on availability of exhibit/barn space. If entries exceed exhibit/barn capacity then space will be given on a first-come, first-serve basis with Solano County Exhibitors receiving priority over out-of-county exhibitors. If an exhibit is cut, due to lack of space, all entry fees will be refunded for that exhibit.
3. State Rules are applicable to all classes offered, exhibitors and entries entered at the 2024 Dixon May Fair. State Rules and Health Rules applicable to the Senior Department apply to the Junior Department.
4. Each exhibit must be the bona fide property of the exhibitor and must be included in his/her current year's project work. All exhibitors must own Market Beef for 120 days, and Market Sheep, Swine, and Goats 60 days prior to the opening day of fair, May 9, 2024. Chickens, Rabbits, Quail & Turkeys must be owned 30 days prior to fair, and all breeding animals 60 days.
5. **Market Animals** must remain in the exhibitor's constant care for the duration of their project. These animals may **NOT** be shown by another person at **ANY** other show/jackpot regardless of the other show's rules. Any exhibitor found to be in violation of this rule will have their animal disqualified from the Dixon May Fair.
6. 4-H, FFA or Grange members enrolled in a project as of January 1, 2024 will not be eligible to show in that project category as an Independent Junior.
7. Animals will arrive on designated days. Upon arrival the entered animal will receive a health check and if the animal passes the health check then it will proceed to the scale to be weighed, if the animal makes weight it is then placed in an assigned pen. If an animal fails the health check it will vacate the premises. If the animal fails to make weight it will need to vacate the fairgrounds. NO animal will be penned that does not pass the health check or make the weight requirements.

8. Biosecurity measures -

- The CDC website states that "COVID-19 vaccines are safe and effective at preventing COVID-19, including severe illness and death." Vaccination is recommended per CDC, CDPH and Solano County Public Health.

Dixon May Fair **Residue Avoidance Program**

In an effort to increase awareness of the responsibilities associated with the production of consumer oriented products, the Dixon May Fair requires exhibitors of market animals to sign a Medication Declaration Form. It is also required that breeding animals on medication also declare such treatment on a Medication Declaration Form. If an animal requires medical treatment while on the fairgrounds, only a licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the Official Fair veterinarian, but the official Fair veterinarian MUST be notified in advance and he/she MUST be present. Furthermore, The Official Fair Veterinarian, in agreement with Show Management, reserve the right to treat any animal if, in the opinion of the Official Fair Veterinarian, it is in the best interest of the animal's health and well-being to be treated. All treatment costs are the responsibility of the exhibitor. All animals treated on the fairgrounds must submit a Medication Declaration Form. This form acknowledges the use of any substance in/on the animal for which the required withdrawal period has not completely elapsed prior to arrival at the Fair. This includes substances used per label or in an extra-label fashion. All extra-label drug usage MUST be done under the supervision of a licensed veterinarian and their contact information is required. Any animal requiring medically necessary treatment within 48 hours of competition may need to be withdrawn from competition if hydration status, mentation or gait will be affected by the necessary treatment. The intent of the program is not to prevent medically necessary treatment, but to insure the animal's well-being and fair competition. The decision of the Fair's management in regards to eligibility for competition shall be final.

The Dixon May Fair is implementing the Residue Avoidance Program and reserves the right to test any animal officially entered in any division at any time without notice, for foreign substance including but not limited to drugs, chemicals or feed additives.

Compounds tested for may include but are "not" limited to:

Antibiotics

Local Anesthetics

Non-Steroidal Anti-Inflammatory Drugs

Diuretics

Sedatives/Tranquilizers

Steroids/Growth Promotants

Note to Parents/Legal Guardian, Leader/ Supervisor

By signing the Entry Form each parent/legal guardian acknowledges that:

1. He/she has read the Dixon May Fair Exhibit Guidebook - General, Livestock, Auction and Special Rules and Regulations;
2. The Junior Exhibitor has owned, fed and cared for the market animal(s) throughout the required ownership period. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not had any drugs, chemicals, feed additives, or other substances used on them except pursuant to the label specifications, or unless under the direction and supervision of a licensed veterinarian for therapeutic purposes. All drugs, chemicals, feed additives or other substances for which the required withdrawal period has not elapsed prior to arrival at the Fair must be declared on a Medication Declaration Form at official weigh-in;

Withdrawal time on all market animals that have a declared medication must not be past the Sale Day - Saturday, May 11, 2024.

3. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not been tampered with in any way, including but not limited to, unethical fitting or any method altering the natural conformation of any part of the animal's body;
4. He/she understands the penalties for violating these General, Livestock, Auction and Special Rules and Regulations, include but are not limited to, monetary penalties, and the immediate disqualification of the Junior Exhibitor.

Residue Avoidance Policy

The Dixon May Fair reserves the right to test any animal officially entered in any division at any time without notice, for any foreign substance including but not limited to drugs, chemicals or feed additives as well as DNA testing. At a minimum, some animals from the following groups may be tested: All large animal Champions and Reserve Champions (including any alternates) and; any animals suspect in terms of unusual physical appearance, demeanor or activity. As a condition precedent to accepting an entry, an entry form signed by the exhibitor, FFA (Agricultural Science) Instructor, 4-H Leader, Grange Advisor, Parent or Legal Guardian grants the Dixon May Fair permission to test any entry.

Testing may be performed on any body tissue or fluid on both the live animal and the carcass.

Test samples collected from any animal must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal and illegal), chemicals of any kind or feed additives, unless established as permissible by the USDA or FDA or disclosed on the Medication Declaration Form.

If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the Dixon May Fair. Animals must remain free and clear of all drug and chemical residues while on Fairgrounds unless being treated by the Fair veterinarian or a licensed veterinarian while the Fair veterinarian is present. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.

The showing of any animal that has been administered during its life any quantity of any unapproved drug, chemical or medication is strictly prohibited. Such drugs include, but are not limited to, any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption.

If a market animal has declared a medication, the withdrawal time on that market animal cannot be past the Sale Day - Saturday, May 11, 2024. If withdrawal time is past the sale date then the market animal is not eligible to be champion/reserve champion or enter the championship run nor is it eligible to be sold at the Junior Livestock Auction. The animal can still be shown in market and showmanship classes.

Animals testing positive to an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/or auction proceeds, the Dixon May Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor's animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the Dixon May Fair and the exhibitor may be compensated for the market value, less expenses, if the animal passes inspection. Carcass of disqualified animal or poultry will be disposed of per instructions by CAHFS if disposed of before entering the food chain or by written instructions from U.S.D.A. or FDA if already in the food chain.

If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of all fees (including attorneys' fees), fines, and costs incurred by the Dixon May Fair as result of the disqualification and any proceeding related to the disqualification; The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent Dixon May Fair Programs. The extent and degree of future eligibility shall be determined by Fair management.

Dixon May Fair Residue Avoidance Program

Residue Avoidance Policy (continued)

If foreign substance residues including drugs, chemicals or feed additives are found in tissue of carcass of animals sold through the Junior Livestock Auction, the Dixon May Fair will in no way be liable or responsible for condition of carcass or sale price of animals.

If, for any reason, any part of a carcass must be removed by U.S.D.A. inspectors, sale price will be discounted accordingly.

Wholesome Assurance Statement

The use by non-veterinarians of animal drugs or other substances in any manner other than in accord with the labeling approved by the FDA is a violation of federal law.

Note: Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.

Any food animal must not exceed FDA/EPA/ USDA established tolerances for any foreign substances including drugs, pesticides, feed additives or other chemicals. Violative results of residue testing are subject to investigation by the USDA and FDA for prosecution.

Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.

Food Animal Residue Avoidance Databank (FARAD) will be consulted and used to determine withdrawal times

Violations

If a Junior Exhibitor be found in violation of any of the Livestock Show rules, he/she and his/her family may be forever barred from showing at the Dixon May Fair.

Post Mortem Examination: The Dixon May Fair may require a post mortem examination of any animal which dies at the Dixon May Fair. This will be performed by a licensed veterinarian at the expense of the exhibitor.

Notice to Junior Livestock Exhibitors

Residue Avoidance test fees: any fees related to testing any animal or carcass as required by The Dixon May Fair, U.S.D.A or F.D.A. or food processor will be deducted from sale proceeds of the junior exhibitor.

If an animal tests positive on the original residue test screen, the exhibitor shall be responsible for paying for the confirmation test. If the exhibitor fails to pay or post fees for the confirmation test, the animal in question will be declared ineligible.

1. It is the policy and rule of the Dixon May Fair that no animal which is entered for competition in the Dixon May Fair shall contain any trace residues of any substance which are not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for slaughter animals, unless disclosed on the Medication Declaration Form.
2. It is the sole responsibility of the Exhibitor to insure that the animal is free of the above prescribed drugs and substances. Extent of knowledge on the part of the Exhibitor with regards to the drugs or substance found in an animal is not relevant to any issue, and it shall not be the defense that person or persons unknown introduced the proscribed substance into the animal prior to, or at arrival, or after arrival on the Dixon May Fair property.

3. Personnel (employees and contractors) of the Dixon May Fair, other approved departments (and their representatives) within California State Fair, University of California at Davis, California Polytechnic State University, San Luis Obispo and Pomona, California State University at Fresno or Chico, Modesto Junior College, University of California at Davis Veterinary Medical Teaching Hospital, FDA, USDA, California Department of Food and Agriculture, California Department of Health or any other representative approved by the Dixon May Fair reserve the right to take urine, blood, hair and other body tissue samples from any animal or it's carcass at any time without notice, for the purpose of determining whether there is any residue of any substance found within the body of the tested animal. The exhibitor, by entering his/her animal, expressly agrees that he or she will cooperate with the person or persons charged with the responsibility of taking the sample from the animal at the time of arrival, weigh-in, during the show or any other time the animal is on the Dixon May Fairgrounds. Failure to fully cooperate with testing procedures, and/or representatives collecting samples shall indicate a voluntary withdrawal by the exhibitor of the animal from the competition, and result in the immediate disqualification of this project and automatic loss of participation privileges in all future Dixon May Fair competitive events.
4. All samples shall be taken by persons designated by the Dixon May Fair and tested in an approved Laboratory. Reasonable care will be taken with regard to maintaining the purity and identity of the sample. The only chain of custody required will be that routinely relied upon by veterinarians practicing in and around the SOLANO COUNTY REGION.
5. As samples are taken, the Junior Exhibitor, a parent or legal guardian and/or a leader/supervisor shall be present to view the procedure. Upon collection of a sample, the Junior Exhibitor, and a parent or legal guardian or leader/supervisor shall provide their signatures to acknowledge that the sample was collected from the Exhibitor's animal.
6. In the event that any animal is disqualified as a result of the violation of any of the rules found within the Residue Avoidance Program, or the animal is voluntarily withdrawn from the competition as a result of failure to cooperate with the testing procedures, then the Exhibitor shall immediately return awards and/or premiums previously presented. With regard to auction money, it shall be the option of the individual purchasing the disqualified animal to either donate the money to the Junior Livestock Auction for the next year's use or donate the money to the Friends of Dixon May Fair Scholarship Program, or upon request, receive a total refund of the auction money paid.
7. By making entry in the Dixon May Fair Livestock Showcase, the Exhibitor, a parent or both parent(s)/legal guardian(s) and project leader/supervisor agree to abide by this Residue Avoidance Program.

BEEF CARCASS CONTEST

No Entry Fee

No Pre-Entry Required

American System of Judging:

No Cash Awards

Champion Carcass Buckle

Sponsored by: Napa/Solano Cattlemen's Assn.

Several Carcass Quality Indicators have been evaluated to determine the winning carcasses. The Carcass Index Score is the final determinate for the contest with the highest scores representing the superior carcasses.

Live Grade: The grade or group that the judge at the fair awarded each market animal.

Warm Car. Wt. (Warm Carcass Weight): The weight of the carcass immediately after slaughter.

Dressing%: Comparison between the warm carcass weight and the live weight. It indicates the efficiency of the carcass; a high dressing percent is preferred.

Quality Grade: Determined by the USDA Grader. He evaluates the carcass weight, amount of muscle, size of the ribeye and quantity of marbling (Intra-muscular fat). The quality grades are P=Prime, C=Choice, S=Select, St=Standard. Quality grades are broken down into thirds within the grade. This is denoted with = or -. A medium category within a grade is indicated with the grade only. (i.e., C+, C, C-). *Must be select or higher to participate.

Ribeye: The size of the ribeye is used to determine a qualitative evaluation of carcass muscle. The ribeye is measured between the 12th and 13th rib in square inches. For comparison purposes, a standard 600 lb. warm weight carcass should have a minimum 11 inch ribeye.

KPH-Kidney Pelvic Heart Fat: A measurement of the fat in the internal body cavity. A lower percentage is preferred. For a 600 lb. Warm weight carcass, the KPH should be a maximum of 3.5%.

Adj. Yield Grade-Adjusted Yield Grade: A standard of measurement for the leanness and efficiency of the carcass. It is established by beginning with a preliminary yield grade as determined by the USDA Grader. This initial yield is adjusted for ribeye size and KPH percentage. A lower yield grade is preferred.

Car. Index-Carcass Index: An index developed to rank carcasses. The carcass index is based on the adjusted yield grade and the quality. A high index is preferred.

All dogs will be on Leash. Evidence of Teamwork between dog and Handler, but perfect "heel position" is not required. The Team starts at 100 points, and the judge deducts points for the mistakes such as tight leash, crooked sits or performing an exercise incorrectly. There is no time limit and the team moves at their own pace, however at competition level, the performance is timed, and in the event of a tied score, the fastest team wins. The judge expects to see the dog demonstrate willingness and enjoyment. Unlimited communication between handler and dog is encouraged. Handlers may give multiple commands and signals but may not physically guide or correct the dog. Food or toys are not permitted in competition. Courses are designed by the judge and are different in every trial. Handlers receive a course map from the judge and can walk the course without their dogs prior to the start of the competition.
