We were doing the fair in
Los Banos Ca. We take our
computers + external drives out of
our booth every night so they
will be safe + we put them in our
van. The next morning we went to
get them out ~~of~~ of the van + take
them back to our booth. We ~~we~~ got
to the van it was broken into +
they were stolen. The computers +
the hard drives were stolen. The
computer ~~we~~ have our programmes
in them + our hard drives have over
2 million designs in them. We could not
make our signs, necklaces, license
plates + license plate frames.
So we could not do any fairs.
